

CHS STEM

Have you ever considered how STEM impacts our daily lives? Science is our natural world... Technology as computers and smartphones... Engineers design buildings, roads, bridges... Arts bring to life innovations... Mathematics make things work... The only thing not born through a design process fostered by STEM education is nature itself.

Informational Meetings:

February 8th 6:30-7:30

February 21st 6:30-7:30

CHS Room 501 (Tech Ed)
